

# the Fresh Press ALERT

Produce that's Fresh. Information that's to the Point.

APRIL 20<sup>TH</sup>, 2018

## **BROCCOLINI ALERT**

Demand exceeds supply as cold and wet weather hamper production.

## **CITRUS—ORANGES ALERT**

The industry is down to the last of the small Navels and into mostly 88 ct and larger sizes; quality is very good.

## **MUSHROOMS ALERT**

The western U.S.'s late February freeze and early March's northeastern storms have reduced composting operations in those regions, forcing other regions to shoulder demand in a crop that cannot respond quickly.
